Dear City of Rochester Resident,

The City of Rochester is pleased to announce the launch of Rochester Community Power, a Community Choice Aggregation (CCA) program, (municipal authority enabled by NYS regulation) that allows us to pool our community’s local electricity demand to provide low cost, **fixed-rate renewable electricity supply**. Our City has selected Joule Community Power, a division of Joule Assets, Inc., as Program Administrator. Joule works on behalf of our municipality to secure clean energy supply at the most favorable terms and ensures there are **no contract or exit fees** for consumers.

100% Renewable Electricity

The City of Rochester has chosen 100% Renewable default electricity supply. Your electricity supply is matched by Renewable Energy Certificates (RECs) provided by New York State renewable power plants (hydropower, wind, solar). **You will automatically be enrolled in the 100% Renewable Option unless you choose to opt-out of the program.**

Join the Rochester Community Power team at an information session and Q&A to learn more about the Program.
